Dear Sir or Madam:

Thank you for your interest in the proper disposal of hazardous waste from your business. Information regarding this program, including a price list follows. The Registration form and the Shipping form need to be completed and returned to our office prior to delivery. The remaining information is for your review.

SEMCO will only accept hazardous waste from businesses determined to be Conditionally Exempt Small Quantity Generators (CESQG's). A CESQG is a business that generates no more than 220 pounds of hazardous waste per month and stores no more than 2,200 pounds on site at any one time.

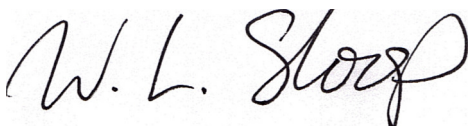

Our goal is to reduce groundwater contamination through the proper disposal of hazardous chemicals. We are a **non-regulatory** agency and offer this **voluntary** disposal option as a means of realizing our goals.

If you qualify for the program, please call to set up an appointment. At that time we will confirm your generator status and discuss the procedures for accepting wastes into our program. If you have any questions or concerns, please don't hesitate to call us at 319-456-6171.

SEMCO has added a pick-up option available for businesses. This option provides the convenience of no longer needing to arrange or provide both vehicle and driver for a drop off during your normal business operations. Our personnel will arrive at the scheduled time to pick-up your waste and transport it to the SEMCO facility. This option will alleviate the liability, the time and cost of transporting the waste yourself. Your material will be handled by qualified, competent, DOT trained personnel who will assess the risks associated with the material and package it to prevent an inadvertent reaction or spill of your waste during transportation.

Thank you again for your interest, and we look forward to hearing from you.

Sincerely,

Bill Sloop
Manager

Conditionally Exempt Small Quantity Generators REGISTRATION/CERTIFICATION FORM

I certify that I am a hazardous waste generator within the State of Iowa and because of the small volume of hazardous waste generated and/or stored, I qualify for Conditionally Exempt Small Quantity Generator (CESQG) status. I understand that to qualify for CESQG status, I must meet **both** of the following conditions (as defined by 40 CFR Section 261.5):

1. Generate less than 220 pounds/month (100kg) of all other hazardous waste, and never store more than 2,200 pounds (1,000kg) on the site at any time; and
2. Generate less than 2.2 pounds/month (1kg) of acute hazardous waste, and never store more than this amount on site at any time.

I further understand that if, in the future, I exceed the quantity limitations described above, I will no longer be eligible to participate in this type of collection program.

I, the undersigned, have read the above statements and understand the conditions and provisions that apply to the use of the CESQG Program. I certify that I have the right to make these statements on behalf of my farm or business.
